BLUE SPRUCE

(Picea pungens glauca)

VERY SPECIAL

Catalog No. E1

Last spring a sellout! And this crop is even better! Plants
are a year older and perfect for transplanting. Trees are
grown from blue trees and predominate in the blue hues.
Plant in full sun and mulch with manure, leaf mold, or
nitrogen-rich Plantland Peat to bring out color.Strong 5 and 6-yr-old, twice transplanted, 10-12 in. in
height. Will develop into priceless specimens.

Each

SILVER-GREEN PEITZER

(Pezomachus glauca)

One of our finest spreading evergreens.
Bluish-silver cast gives splendid color contrast
with other shrubs and evergreens. Exception-
ally hardy; withstands sun and drought.Catalog

SILK TREE

(Albizia)

Sensational Southern Belle but hardy at our location. Wonderful floral
display of rosy, silky flowers. Tree is small in the north—about 20 ft.—
and groups well. Grey-green branches and fine, airy leaves lend a tropical
effect. Our 3 ft. plants transplant beautifully and
are certainly priced right.

THE FINEST ROSES YOU CAN BUY— NORTHERN AND WESTERN GROWN—A.A.N. No. 1 GRADE

This year FORREST KEELING NURSERY, home of PLANTLAND, brings you the widest array of roses in its history. Never before have we been able to offer such depth of variety. "If it's good, we got it!"

Most importantly, all—all, that is—of our rose bushes come from the choice growing regions of the west coast or the northern states. Plants cost more from these favored growing districts. After

years of trying other sources, we are convinced that the extra cost is an excellent investment.

All of PLANTLAND'S roses are, of course, guaranteed to come into full bloom this summer (excepting hardy climbers, which bloom first year after planting). We offer no wax-topped store roses but only the finest two-year nursery-grown bushes obtainable.

ROSES

Hardy Ever-Blooming ROSE Bushes
Our Greatest ROSE Offer Ever

WESTERN GROWN

Two-year Nursery Grown rose bushes ready to pop into full bloom this spring and bloom abundantly through summer and fall. Not so large as our first grade plants but otherwise identical.

Make no mistake—these are **not** southern-grown bushes. They come from the fertile valleys of central California, home of the choicest rose production in America. The varieties included are the top of rating

list of the American Rose Society—the final arbiter on rose quality. These are all-time favorites to give you the most magnificent bloom, delicious fragrance and vibrant color week after week throughout late spring, summer and autumn. Sorry, no substitutions. Remember, these are no wax-topped plants, prepackaged at some distant point and shipped in. We carefully sort, grade and pack right in our own packing room to assure field-fresh quality.

SPECIAL
SALE
3 for Only

Catalog No. R100

\$1.49

We cannot guarantee the length of time our stocks of these roses will last at this truly terrific offer. We can assure our early mail order customers that they will be protected. When we peek into our bulging storage rooms, we think we will have enough plants for our drive-in friends for the first few spring weeks. But when our stocks are gone, they are gone. We cannot replace to sell at this price.

THE BEST OF J & P

We have just made arrangements with famous Jackson and Perkins rose growers to handle their special varieties. Here you have many outstanding discoveries available only through J&P or their authorized distributors.

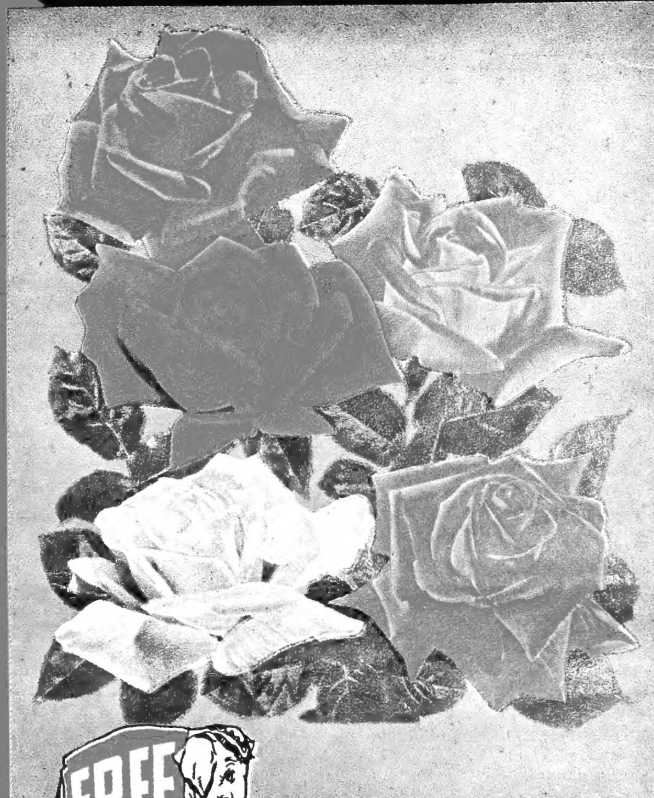

The following varieties, we believe, represent J&P's "cream-of-the-crop." We are proud to bring you these proven-merit beauties.

One AMUR SHRUB
HONEYSUCKLE
with order of 3 or more Roses

This is the remarkable "Thanksgiving Honeysuckle" so-called because of the masses of bright red berries that brighten the autumn landscape. Too, the bright forest-green foliage remains long after other shrubs are bare. In the spring the shrub is bedecked with fragrant, creamy flowers that lend a delicious scent to the garden. Attracts song-birds. A most vigorous, hardy, sturdy shrub that will grow most anywhere and is useful as a major plant in the shrub border or for planting in the yard corner or for screening.

PLANTLAND

SALE of EXCITING PLANTS for Indoors—Outdoors

ROSE GARDENIA

Well known winter blooming Gardenia used extensively by florists. Our plants are in bud and will soon furnish waxy white corsage blooms. Foliage is a rich lustrous green. Culture is same as Geraniums. Gardenia requires more light than house plants and thrives best out-of-doors through spring, summer and early fall. Bushy plants, filled with bloom-buds, growing in 3-inch pots.

DWARF ORANGE and LEMON PLANTS

Grow your own citrus fruit—on graceful miniature orange and lemon "trees" which thrive indoors. Attractive evergreen plants brightened by fragrant white blossoms, gleaming golden oranges and sunny yellow lemons. Delightful plant which never stops growing—bears blossoms and fruit year after year. Well formed, edible fruit is very juicy with delicious flavor. Fine quality, well-rooted plants growing in pots. As easy to grow as geraniums.

MINIATURE ROSES

For your growing pleasure indoors and outdoors—a dainty miniature rose bush no taller than 12 inches. Enchanting, long pointed buds open into tiny perfectly-formed double roses. Delightful for arrangements and nosegays—bright beauty for bed edgings, mass plantings or single potted plant. Easy to grow as Hybrid Teas, prefer good rich soil on the slightly acid side. Feed and spray occasionally.

Miniature Roses are gay gifts for shut-ins, pleasure for apartment dwellers and joy for a child's first venture with flowers.

Grown in pots, shipped with pot balls individually wrapped.

PLANTLAND'S
CHOICE SELECTION

UNUSUAL PLANTS

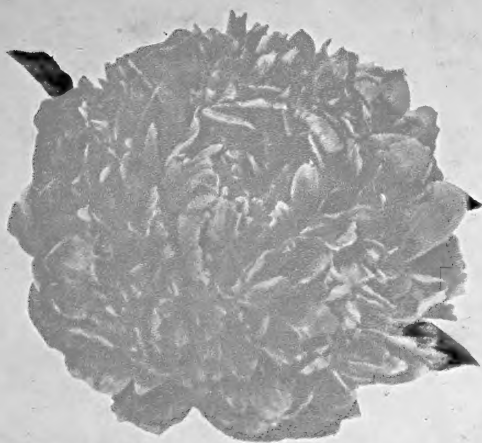

BEST of the HARDY AZALEAS

Have you been confused as I have been by the endless varieties of azaleas offered to the public? Believe it or not, there have been over 1500 named varieties introduced in America, most of which are worthless to the northern gardener. Now that eminent horticulturist, and our good friend, James Wells of New Jersey, has succeeded in winnowing out the top selections for northern gardeners. These are, first and foremost, of iron-clad hardiness. They will take temperatures of 10 to 25 degrees below zero! More than that, they are of the best horticultural merit—in flower display, colors and growth habits. Most of these selections are so new and so rare that only small plants are available, but they will all bloom prolifically this spring and grow on to make the most dazzling subjects in your garden. We have found azaleas easy to grow by following these simple rules: Grow in a raised bed of virtually straight acid peat moss. Do not expose to hot afternoon sun—the east side of the house is ideal. Mulch but never cultivate. Occasional light feeding of an organic fertilizer—cottonseed meal, dried blood, hoof-and-horn—is all the fertilizer needed. We sincerely believe that the following selections are the best azalea varieties obtainable for northern gardens.

**Rushed From Famous Japanese Gardens
Especially for You—**

THE EXOTIC TREE PEONY

(*Paeonia moutan*)

A garden treasure so rare it is found in only a few outstanding American gardens. Yet the lovely Tree Peony is completely hardy and does well in most sunny locations with a minimum of care. Once established, the Tree Peony lives to an ancient age, increasing in size and abundance of bloom year by year. And what flowers! Big, double blooms up to 8" across. Older plants bear as many as 200 blooms per plant. Petals have the gleam of oriental silk and a clarity unrivaled in lesser peonies. Delightfully perfumed.

Plants gradually grow to fine bushes 3 to 4 feet high and broad, as they do not die down to the ground each winter as ordinary peonies. **Do not cut back woody branches.**

Tree Peonies have been acclaimed the most beautiful plants ever to bloom in a garden. They certainly deserve an honored spot in your garden where they may develop into their full glory. Plant singly or in groups of three.

You get 2-year field-grown grafts of finest imported quality

Azalea ROSEBUD

Catalog No. ER 1 A

Best of the famous Gable discoveries. Bred and developed in the frosty mountains of Pennsylvania, ROSEBUD is actually hardy to 20 below zero. Delicate pink "rosebuds" smother the plant at Mother's Day. Dwarf, compact habit. Evergreen foliage.

Azalea "CHERRY RED"

Catalog No. ER 1 B

The gorgeous HINO CRIMSON. Proven much hardier than the old Hinodegiri. Dwarf and compact growing. A crimson blaze in mid-spring when the flowers smother the evergreen foliage. The outstanding azalea for maximum color.

OTHER WELL'S SELECTIONS

Catalog Number

WHITE

ER 1 C—**POLAR BEAR**—Much harder than "Snow." Evergreen. The finest medium-compact azalea we can offer.

ER 1 D—**PALESTRINA**—An excellent taller-growing variety.

PALE PINK

ER 1 E—**LORNA**—Another Gable introduction. Phlox pink and dwarf. Evergreen.

ER 1 F—**EUREKA**—A U. S. Dept. of Agriculture discovery and proven unusually hardy. Good glossy foliage; center of flower much darker, giving two-toned effect. Medium tall.

ROSEBUD—(see above.)

DEEP PINK

ER 1 G—**THAIS**—Bright crimson-pink flowers and tall upright habit. Unquestioned hardiness and color outstandingly good.

ER 1 H—**FEDORA**—A mass of deep pink trumpets in spring. A tall grower that may eventually reach 4 or 5 ft. Excellent landscape plant for back of border.

SALMON PINK

ER 1 J—**BRIDESMAID**—Carmine-rose or salmon pink blazes out in group of many varieties. Dwarf; evergreen. Excellent habit and unusually hardy.

CRIMSON

HINO CRIMSON (Cherry Red)—(see above.)

RED

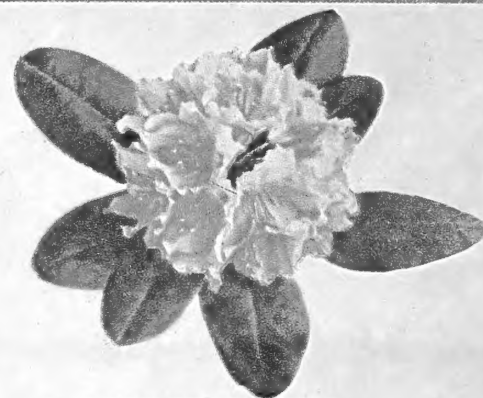

ER 1 K—**MIKADO**—Deep crimson or spirea red, deeper than Thais. Tall-growing; completely hardy.

PURPLE

ER 1 M—**PURPLE SPLENDOR**—Cyclamen-purple, heavily frilled flowers. A splendid, hardy, medium-tall evergreen variety.

RHODODENDRON

Direct from Holland, we have a shipment of Catawbiense Grandiflorum Rhododendron. This is a very hardy variety with large, beautiful lilac flower trusses. Large, evergreen foliage is striking the year round. Plant with plenty of acid peat away from exposure to hot afternoon sun. Same culture as azaleas.

Fine, sturdy plants—8-12 inches
Catalog Number ER 2

\$1.49
each

AZALEA MOLLIS HYBRIDS

Mollis is the giant flowered azalea. Blooms are almost 3 inches across and completely cover the plant in May. Plants come in a dazzling rainbow of color—apricot—yellow—bright red—soft pink and salmon orange; they are **guaranteed to bloom**. Our plants are loaded with flower buds. Mollis is not evergreen but is easy to grow. It does not require an acid soil but relishes plenty of peat moss or other humus in the planting bed. A very sturdy and gorgeous azalea.

PLANTLAND'S

Garden Fair SALE PRICES on VINES and GROUND COVERS

BALTIC IVY

(*Hedra helix baltica*)

Hardy form of English Ivy. Excellent vine for covering walls of stone and brick. Equally useful as a ground cover where grass is shaded out, or for shaded embankments. Spreads and covers rapidly. Plant one foot apart.

Six or more plants
Catalog No. V 1 **25c** each

BOSTON IVY

Queen among vines for growing against concrete, stone or brick. Clings without any support whatsoever! Handsome, lustrous leaves turning scarlet in autumn. Extremely vigorous and rapid growth, in single season! We have a bountiful production this year; hence this very special price for No. 1 vines.

Catalog No. V 2 **3 for \$1.00**

Long-Cluster,
Heavenly Blue

WISTERIA

(*Wisteria floribunda*)

Wisteria has long been a favorite vine in America but the short-clustered Chinese Type (*sinensis*) has been the one commonly planted, while the Japanese (*floribunda*) with its extremely long flower racemes, or clusters, is rarely seen. It is much superior, with flower clusters that cascade 2 1/2 feet or even longer. It is considerably more expensive than the common type and well worth the difference. Our variety, with deep azure-blue fragrant racemes, is as spectacular as it is beautiful. Completely hardy

Catalog No. V 11 **\$1.75** Each

LARGE
FLOWERING

BLUE CLEMATIS

(*Clematis-Lord Neville*)

Huge, velvety violet-purple flowers are of a color not shown in any other vine. Many clematis have been introduced but none, in our estimation, rival the glory of Clematis Lord Neville. Grows rapidly through summer and autumn and blooms all summer long. Likes fertile, moist, cool soil and a protective mulch. Use freely on pergola, fence, upright supports or rockeries.

Catalog No. V 5
Plants from pots. **\$1.30 ea. per 3.** **\$1.35** each

PASSION FLOWER

Most exotic of all flowering vines. Perennial vine with delicately fragrant flowers suggesting the crucifixion. Flowers are multicolored with white and purple crown dominant. Once established produces new flowers daily, July to frost and spicy fruits suitable for marmalade. Normally grows 12 to 15 ft. and blooms first year. Hardy enough to stand northern winters with some protection.

Catalog No. V 12 **98c** Each 3 for \$2.79

ADDITIONAL VINES and GROUND COVERS

Bulgarian Ivy

Hardiest of the evergreen ivies. Introduced by Dr. Edgar Anderson at Missouri Botanical Gardens and proven to be the finest evergreen ivy for ground cover or for wall covering yet discovered. Unexcelled in shady areas where grass will not grow.

Catalog No. V 3

Purple Wintercreeper

(*Euonymus colorata*)

A splendid evergreen ground cover and vine. Rich, deep green in summer; copper-red foliage in winter. Vigorous growing in both shade and sun.

Catalog No. V 10

Engelman's Ivy

Our fastest-growing ivy. As a wall vine, plants will reach eave in a single season. Equally useful as a ground or rock cover. Autumn foliage is a brilliant scarlet.

Catalog No. V 13

Chinese Bittersweet

More fruitful and colorful than native bittersweet. Splendid for covering a fence or bank. Grows in hottest, driest situations. Adjacent to our grounds, there is a mile of fence planted to this vine and it is a riot of color in autumn.

Catalog No. V 4

Hall's Honeysuckle

Used extensively by highway departments for bank covering and equally useful for covering any slope, either sunny or shady, that is too steep to mow. Evergreen foliage. Fragrant, trumpet-shaped flowers. Chinese name means "gold and silver flower."

Catalog No. V 7

(For ground cover listed, vines may be spaced 1 to 2 ft. apart each way. Bulgarian Ivy is best spaced 12 to 15 inches apart; Purple Wintercreeper 15 inches; the other vines may be spaced on 2 foot centers.)

SUMMERLONG PEACH

(Plant Patent No. 1503)
Catalog No. FT 17P

Amazing peach discovery that bears fruit over several week period. Excellent quality of Elberta-type, free-stone, juicy and sweet. Golden flesh and coat with reddish tinge. Most adaptable to home-owner who wishes to gather tree-ripened fruit fresh daily for several weeks.

\$3.75 Each 3 for \$10.95

JUNE-BUD PEACHES

Ask your commercial orchard friend. He will tell you that "June-buds" have it all over the ordinary one-year peach trees in easier transplanting, better growth and bearing. Trees are smaller, but my how they grow and come into bearing fast! These peaches need but little room, are easy to grow. Plant 12-15 ft. apart.

Here are our six favorite varieties for the home orchard:
GOLDEN JUBILEE—very early. Brilliant golden fleshed juicy, free-stone. Excellent canner. Catalog No. FT 13P.

HALE HAVEN—colors all red long before it is ripe. Very sweet free-stone. One of best canning varieties. Catalog No. FT 14P.

POLLY—Those who have tasted Polly proclaim it the finest flavored of peaches. Fruit very large, blushed, freestone. Unexcelled for sauce and preserves. An unusually hardy variety. Catalog No. FT 15P.

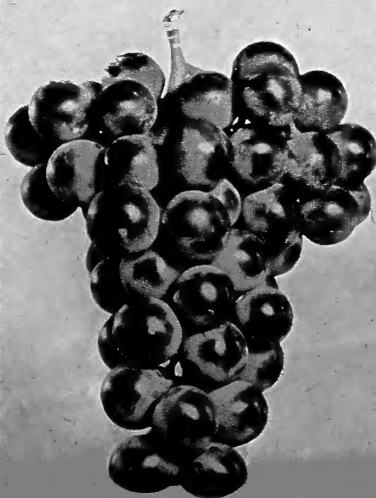

RED HAVEN—Has been described as the finest peach ever introduced. A magnificent color red over gold and a flavor and productiveness to match. Catalog No. FT 16P.

EARLY ELBERTA—identical to Elberta but ripens a week before Elberta. Catalog No. FT 11P.

ELBERTA—still the most popular of all peaches. Large handsome fruit, yellow with blush. Freestone. Delicious. Catalog No. FT 12P.

Strong 3-4 ft. June-buds. Your choice of varieties **\$1.39 ea.**

Plantland's Lifetime GRAPES

Our grapes will bear every year. A few dollars spent on these fine grape vines will supply you with delicious fruit for a lifetime. These big, husky 2-yr. vines are the finest grown. Bear young. Plant along lot line or fence. 5 to 8 ft. apart.
CONCORD—The standard blue-black grape, tender, sweet, juicy. Bears heavily every year. Outsell all other grapes. This is the outstanding juice grape.
NIAGARA—Favorite white grape with big bunches, of tangy, flavorful fruits.
CATAWBA—The finest red grape we can recommend. A dessert grape of exceptional quality. **CATAWBA** is also the outstanding grape for making white wine. For those who wish to produce the finest in vintage, plant Catawba for white wines, Sheridan for red wines.
FREDONIA—Our favorite black grape. Big bunches of sweet, delicious grapes ripen 3 weeks before Concord.

Prices on above 4 varieties

GOLDEN MUSCAT—New golden grape that possess the delectable flavor and delightful aroma of the finest greenhouse grapes. Produces immense bunches of large, oblong fruit. A hardy delicious grape for those who want something special.

SHERIDAN—Black dessert grape of highest quality and also the preferred grape to use for making red wine. Discriminating vintners recognize that Concord, though unexcelled for juice, should never be used for making a quality wine.

CHERRY TREES

Cherries are splendid fruit trees for home-grounds planting—handsome in foliage and flower and productive of healthful fruit. Cherries bear young and regularly. Cherries do not like "wet feet"; so plant your trees where the soil drains well. Plant 15 to 20 ft. apart. Our trees are vigorous 4-5 footers, well-rooted.

Here, in our opinion, are the 3 best and most reliable cherries you can plant. No sour cherry rivals Montmorency and the dark red Kansas Sweet and golden Yellow Glass are the hardiest and most reliable of the sweet cherries.

FT 9C MONTMORENCY—Best and most popular of all sour cherries. This is the famous pie cherry—unrivalled for canning or freezing. Delicious right off tree. Virus-free Gilbert strain.

FT 8C KANSAS SWEET—Most reliable red cherry for mid-west planting. Large, dark red luscious fruit. Handsome enough for front yard planting. Good pollinizer for Montmorency.

FT 10C YELLOW GLASS—When we started our nursery (the site of the old Cannon Orchard) there was a young Yellow Glass at the rear of our packing building. All through the years this beautiful tree has grown and prospered, bearing heavy crops of large, golden sugar-sweet cherries. We don't get many—the tree is too handy to passing employees—but enough to attest to the excellent quality of the fruit.

Above cherries, alike or assorted **\$2.50 Each**

PLANTLAND'S

SALE of FLOWERING and ORNAMENTAL TREES

Arie den Boer Famous ORNAMENTAL CRAB APPLE Selections

Here are outstanding flowering crab apples especially recommended by the world's authority, Arie den Boer. Of hundreds of crabs which Mr. den Boer has tested, these discoveries have received top honors not only for flower effect but also for fruit and foliage character, and for form and habit of the tree itself. All selections are completely hardy and easy to grow. We believe this is the finest selection of ornamental crab apples you will find.

ALMEY • Large blossoms of glistening red petals. Scarlet fruits retained till spring. Usually blossoms same year planted.

3 for \$7.25 **\$250** Each
Catalog No. 025

DOROTHEA • 2-inch, double crimson flowers in immense quantities. Bright yellow fruits all winter. A spectacular Arnold Arboretum discovery.

3 for \$7.90 **\$270** Each
Catalog No. 026

FLORIBUNDA • The famous Japanese flowering crab. Unsurpassed for pale pink flowers and good growth habit. Bright yellow fruits.

3 for \$5.95 **\$210** Each
Catalog No. 027

HOPA • An utterly breath-taking bloomer. Tree completely smothered with fragrant, bright pink flowers. Spring foliage a rich maroon. Bright red crab apples through late summer and fall—make delicious jelly! Easy to grow.

3 for \$5.65 **\$195** Each
Catalog No. 028

JAY DARLING • An Iowa find named for the famous cartoonist. Purplish-red flowers, foliage and fruit. Strong grower.

3 for \$5.65 **\$195** Each
Catalog No. 029

KATHERINE • Surely the ultimate in white flowering crabs. Double flowers open very light pink but soon change to pure white. And what a snow-bank of bloom! Indescribably lovely.

3 for \$7.90 **\$270** Each
Catalog No. 030

MAKAMIK • Best of the Canadian Rosy-bloom crabs. Large red flowers followed by bright red fruits. Medium grower, handsome and hardy.

3 for \$6.55 **\$225** Each
Catalog No. 031

PURPLE WAVE • Foliage is purple with copper undertones—darkest leaved of all ornamental crabs. Carmine buds open to bright pink bloom. Dark red fruit. A low to 18 ft. spreading grower, ideal for modern homes.

3 for \$6.15 **\$210** Each
Catalog No. 032

SARGENT • A true dwarf, growing to only 7 or 8 feet, but grows very broad. Masses of pure white, fragrant flowers followed by scarlet fruit hanging all winter. Very choice.

3 for \$7.90 **\$270** Each
Catalog No. 033

You will get sturdy 3-4' or 4-5' trees except the dwarf Sargent Crab which is 2-3 ft.

SPECIAL

① Flowering Crab Garden

Your selection of any 5

\$949

② SAUCER MAGNOLIA

(*Soulangiana*)

Most favored magnolia for northern gardens. Huge tulip-like flowers, 6 to 9 inches across, adorn the tree in early spring before leaves appear. Flowers are white within, stained purplish-orchid without. Broad, glossy leaves lend tropical effect. When in bloom, even one plant will dominate the garden—even the neighborhood.

2-3 ft. field-grown plants,
blooming size (some will bloom this year!)

3 for \$9.90 **\$350** Each
Catalog No. 08

③ WHITE FLOWERING DOGWOOD

Best ornamental tree native to northern U.S. Nothing equals its flowering effect at break of spring. Bright red berries in fall; dense, lustrous foliage that turns scarlet in autumn; and horizontal branching habit make it a 4-season beauty.

Field-grown 36-42" plants

3 for \$5.00 **\$179** Each
Catalog No. 011

③★ PINK FLOWERING DOGWOOD

Identical to above, except a gorgeous grafted pink flowering strain. Blooms early in life.

24" field-grown plants
for best transplanting

2 for \$5.50 **\$270** Each
Catalog No. 07

④ BLACK GUM

(*Nyssa sylvatica*)

A tree of unsurpassed beauty, and one rarely seen. Pyramidal habit, similar to Sweet Gum, but foliage more dense, lustrous and leathery. Autumn color is the most brilliant scarlet of any tree. An excellent ornamental.

3-4 ft. heavy branched

3 for \$10.00 **\$350** Each
Catalog No. 01

⑤ REDBUD

(*Judas Tree*)

This is the tree that flames forth in the woodlands in early spring (dogwood time) before any leaves appear. Myriad red blossoms cover the branches and trunk, followed by beautiful heart-shaped foliage. Very hardy, graceful, small-growing tree (to about 20 ft.) that combines well with flowering dogwood. A most attractive and colorful addition to the home grounds planting.

3-4 ft. branched trees

3 for \$5.55 **\$196** Each
Catalog No. 015

⑩ Red-Fruited TREE of HEAVEN

(*Ailanthus*)

Grows like mad—several feet a year and has ability to withstand the most trying conditions. It will grow vigorously under the most adverse city conditions where other trees perish or languish. On the eastern seacoast it has withstood hurricanes and salt water inundation that have killed other trees.

It grows into a well-rounded tree, 50 to 60 ft. tall, or it can be used to create a semi-tropical effect by severe pruning. The large clusters of bright reddish fruits in late summer are very colorful.

We do not recommend for general landscape planting because of its too vigorous growth. But where other trees fail, particularly under city conditions, it will be a most welcome addition to otherwise barren landscape.

3-4 ft. trees
Catalog No. 022

3 for \$435

\$155 Each

⑥ "THUNDERCLOUD"

Flowering Plum

Best of the purple-leaved plums, better than Newport. New foliage a coppery-red, changing to deep, almost black-purple as leaves mature. In the early spring, before leaves appear, the tree is a mass of thousands of pink flowers. A beautiful, small contrast tree. Grows to about 10 ft.

In the summer we have this tree growing in containers and it sells like hot cakes when our drive-in friends see the elegant foliage.

3-4 ft. trees,

3 for \$7.25 **\$250** Each
Catalog No. 018

⑦ RED-FLOWERING PEACH

(Double)

Camellia-flowering. Is anything so eye-catching in mid-spring as the red-flowering peach in full bloom? The double, camellia-formed flowers cluster on the twigs and branches to make the entire tree a scarlet mass in the landscape. It is a color-photographer's delight.

Blooms early, often the first year. After blooming, prune severely to encourage even heavier bloom the next year. Grows to about 15 ft.

3-4 ft. size

3 for \$4.25 **\$155** Each
Catalog No. 023

⑧ SUNBURST LOCUST

A medium-growing tree similar to Moraine Locust, except foliage at ends of branches is a bright yellow color. Interior foliage handsome, green, fernlike. The colorful foliage makes tree appear to be in flower throughout summer.

Sunburst casts a light, lacy shade and its medium growth (to 30 ft.) makes it well suited for small properties or restricted areas. Easy to grow. (When at the nursery see our specimen trees of Sunburst. These are the largest in the Midwest.)

4-5 ft. size

3 for \$14.55 **\$525** Each
Catalog No. 021

⑨ JAPANESE BLOODLEAF MAPLE

(*Acer atropurpureum*)

Rare, colorful dwarf tree with dainty, blood-red foliage. Our strain was imported from Holland and re-established in our own nursery to assure best transplanting. It has proven to be an excellent type, holding a fine color throughout the entire growing season. Slow in growth, but a real garden aristocrat.

15-18" size

Catalog No. 024 **\$500** Each

FORREST KEELING NURSERY, Elsberry, Mo.

(Cercis chinensis)

Something new for your garden. Shrub counterpart of native American Redbud but with far more profuse and brilliant flowering. Usually grows only 4-5 ft. but is a riot of brilliant red in early spring when thousands of blossoms, almost double the size of the common variety, smother the plant. Hardy and easy to grow.

3 for \$4.50
Catalog No. S 48 each

(Eucymus alata compacta)

Small shrubs are especially desired for the modern home planting. And here is a gem. Use it to provide a splash of brilliant color at doorways or under low windows. If you want to create a breath-taking hedge, this plant will do it—and you will have to clip only every other year. Fall foliage is a coppery crimson—truly a blaze of color. Winged bark and scarlet berries make the shrub charming all through the winter. Completely hardy.

3 for \$6.50
Catalog No. S 12 each

Spectacular new hybrid variety of Forsythia which originated at Arnold Arboretum. A vigorous grower developing into a large symmetrical plant. The flowers, often 2 inches in diameter, are deep golden yellow with orange markings in the throat.

3 for \$5.55
Catalog No. S 49 each

We have tried and examined about every variety of Lilac, and for sheer effect, ease of culture, modest size, good foliage and reliability in producing abundance of clear lilac flowers, we rate this variety tops. At our mother's home we have a 50-foot screen of Chinese Hybrid Lilacs that is a neighborhood delight each year. Most Lilacs, you know, take years and years to bloom, but this hybrid blooms first year and abundantly second year.

3 for \$3.60
Catalog No. S 23 each

DOLLAR SPECIALS AT PLANTLAND

(Blechnum multiflorum)
New, refreshingly different shrub. Foliage is a delightful sparkling silver. Silver berries in the fall which turn to cherry-red. Yellow fragrant flowers in May. Ideal shrub for background or screening. Plant in full sun for most striking effect.

The ever-popular, improved Bridal Wreath. Probably the most widely used flowering shrub in America. No other shrub provides such a fountain-like display of snow-white bloom in spring. Completely hardy. Grows 5 to 6 feet and makes superb natural hedge when planted 2 or 3 feet apart.

3 for \$2.10
Catalog No. S 34 Each

(Anthony Waterer)
A trim, dainty compact bush 2 to 3 feet in height. A mass of red bloom in spring and intermittent flowers throughout summer. Extremely hardy, and grows in sun or part-shade.

3 for \$3.79
Catalog No. S 33 Each

Blooms in Spring and again in Fall

A unique Chinese shrub with graceful, slender stems. Mahogany-red buds opening to deliciously fragrant pastel pink flowers produce an unusual two-tone effect. Unlike regular Lilacs, the flowers are produced all the way down the branches forming a large bouquet accented by green leaves. Seldom grows over 5 ft.

3 for \$4.50
Catalog No. S 24 Each

(Philadelphia)

New discovery that is unquestionably the most prolific flowering of all mock orange. Long arching branches so heavily loaded with large single alabaster white flowers that they assume the appearance of sheaves of bloom. So white as to make all other mock orange seem gray by comparison. Delightful fragrance, more delicate, yet more penetrating than that of Jasmines. Grows to 6 ft.

3 for \$5.55
Catalog No. S 50 Each

Outstanding and unusual fall and winter color with slender bright red branches showing distinctly against the snow and winter landscape. Excellent bright green foliage and matching green stems during spring and summer. White flowers in June followed by white berries in late summer. Grows 4-5 ft., a compact, neat shrub. Excellent for moist situations.

Hybrid YEW S

AT
PLANTLAND
SALE
PRICES

BERRYBUSH YEW

(*Taxus media Kelsey*)

An outstanding bush form, compact growing with dark, lustrous foliage. Loaded with red berries in autumn. Superb for hedging, entrance or foundation planting.

Catalog No. E 12

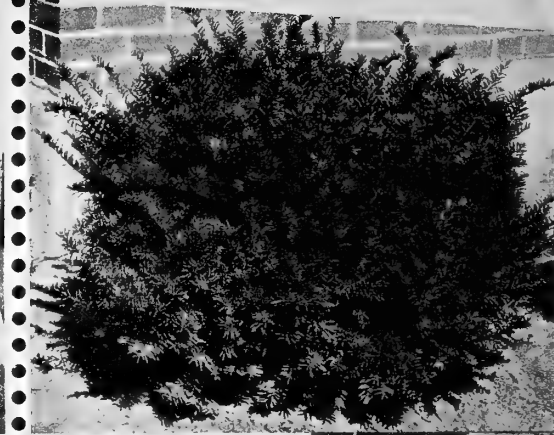

BROWNI YEW

A natural compact-spreading globe shaped yew of fine dense foliage and graceful, feathery branchlets. Easily one of the finest Yew varieties ever introduced.

Visitors to PLANTLAND have long admired the rows of Browni facing our parking lot.

Catalog No. E 10

HYBRID YEW S (TAXUS)

LUXURIOUS . . . DEPENDABLE . . .
BEAUTY . . . at Modest Prices
SUPERIOR YEW VARIETIES

Yews (Taxus) are highly favored for home landscape planting. They are very adaptable, will thrive in sun or considerable shade. They make the most luxurious hedges and are widely used in the foundation planting. Yews transplant readily and are easy to grow. They must have a well-drained soil, however. The older yews (cuspidata forms) proved ill-adapted to the mid-west summers and often too rank in growth. The new hybrid yews—crosses between the English Yew (*Taxus baccata*) and *Taxus cuspidata* have proven hardier, far more drought resistant and altogether lovely. The ones here offered have proven to be outstanding in more than a decade of testing at PLANTLAND.

IMPROVED SPREADING YEW (*nana*)

more compact. Much superior to common spreading Yew—dense and shapely. Thick, waxy foliage.
Catalog No. E 10A

HATFIELD UPRIGHT YEW

Strong, robust, upright grower. Excellent for accent or for hedging, or to plant against open wall. Very similar to Hicksi Yew but somewhat fuller and stronger in growth.

Catalog No. E 11

WHITE PINE

(*Pinus strobus*)

A top-notch ornamental tree. Grows to be one of the tallest trees in America but can be held to virtually any size by annual trimming when candles are out (about June 1). At our old nursery site we had a white pine hedge which we held at 3 feet! White Pine has long, soft, flexible blue-green needles, graceful branches. Our most stately and handsome pine. Splendid for specimen planting, or for screens and windbreaks. Unexcelled as a background for flowering trees.

PLANTLAND'S

CHOICE BROADLEAF EVERGREENS

MAGNOLIA GRANDIFLORA

No other broadleaf evergreen is like the fabulous Southern Magnolia—huge, leathery, evergreen leaves. This romantic Magnolia towers to 90 feet in its southern range but is more often 20 to 30 feet when grown in the north. We are north of the Magnolia Grandiflora native range, yet our plants have thrived and are well acclimated. This plant is worth planting in a protected spot as far north as St. Louis or New York.

15-18 in. plants
Catalog No. BE 10

Each

VIBURNUM BURKWOODI

Burkwood Viburnum. The charming evergreen snowball. Perhaps the most fragrant of garden shrubs. Hybrid of the famous Carlesi Viburnum, but of stronger growth and more evergreen foliage. Delicate pale pink flower heads produced in early spring will fill your garden with fragrance of gardenia on still summer nights. Leathery foliage assumes a claret autumn coloration. Plant in sun or partial shade.

Catalog No. S 36
3 for \$4.25

\$1.50
Each

(*Ilex rotundifolia*)

Excellent lustrous evergreen foliage. Truly aristocratic evergreen to hedge your porch or patio. Our home-grown plants that have endured scorching summers and winter blizzards are not to be compared with tender shipped-in stock.

12-15 in. plants
Catalog No. BE 8
3 for \$3.98

Each

(*Glossy Abelia*)

Here is an exquisite broadleaf evergreen that is simply charming month after month. Abelia begins to show its dainty shell-pink bloom at break of summer and simply doesn't stop blooming until frost. Rich, lustrous foliage persists year round, except in most severe winters. Our plants grow to about 3 feet which makes them superb for low-line massing, entrance pieces or choice hedging. Abelia is noted as a shady-area plant; yet ours thrive beautifully in the nursery in full sun and through the worst drought on record!

15-18 in. plants
Catalog No. BE 1
3 for \$3.55

Each

WINTER EMERALD (*Euonymus fortunei erecta*)

A fabulous Broadleaved Evergreen shrub! Distinctly upright growing with rich dark foliage. Extremely hardy and thrives in sun or nearly full shade. Remarkably easy to grow, and it holds its foliage tenaciously in late winter. Superb in the modern planting, and a superior substitute for boxwood. We have sold hundreds of these field-grown plants, 15-18 in. at \$2.49, but we want many more friends to know this remarkable landscape plant and offer it this spring only at

Catalog No. BE 3

\$1.00
Each

AMERICAN HOLLY

(*Ilex opaca*)

Hardest of all broadleaf evergreen trees and one of the most beautiful. Attractive the whole year, but particularly during the winter months when the bright red berries glisten amongst the holly foliage.

Our hollies are propagated from the best northern types and are all female or berry-bearing. With each plant we send one seedling holly for pollination.

American Holly grows quite large (to 20 feet or more) but for foundation or hedge planting it may be held to any size desired by pruning. Clipping branches only increases density of plant and the pruning may be done in December for Christmas decorations. Prefers rich, well-drained soil and protection from sweeping winds.

12-15" transplants, plus one seedling holly
Catalog No. BE 5
3 pairs for \$6.45

\$2.19

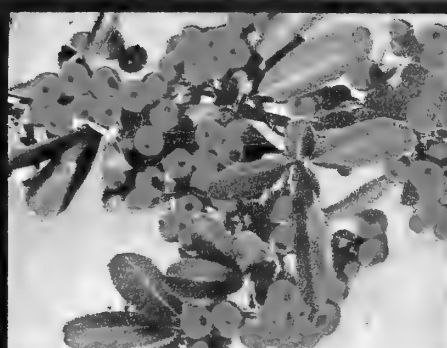

OREGON GRAPE HOLLY

This broadleaf evergreen is easily grown, with shiny holly-like leaves and clusters of yellow flowers followed by bunches of blue berries. Thrives in shade or sun. Ornamental foliage is useful for cutting.

Catalog No. BE 9

\$1.00
Each

FLAMING FIRETHORN (*Pyracantha*)

Selected Wyatt strain for better growth habit and redder berries. Hardest type we have tested—withstanding 10° below zero last winter. Flaming, fiery orange-red berries make this broadleaf evergreen the showiest of all shrubs in autumn. Excellent for hedging, corner planting or to train against wall or fireplace.

12-15 in container-grown plants
Catalog No. BE 19
3 for \$4.35

\$1.25
Each

BOXWOOD

Our hardy northern boxwood plants have endured two winters in open field rows and will readily establish in your home grounds. Boxwood is priceless for hedging or growing into specimens. No other plant so appreciates in value with the passage of the years. The bright evergreen foliage is dense and tightly knit. Clips to sculptured lines but slow rate of growth makes clipping rarely necessary, even for hedges.

Plants are 4 yrs. old, full and bushy, approximately 12 in. in height

SILVER AND GREEN POPLAR

(Boleasa)

An unrivaled columnar tree for screening or accent. Reaches a height of 40 to 50 feet and in a hurry. Trees on our own nursery have shot to 30 feet in four growing seasons. Best of all this tree does not "playout" like the Lombardy Poplar. It is far superior in every respect—character, form, beauty and long life. Silver and Green has foliage that is bright green above; silver beneath. Smooth, silver-green bark is most attractive winter and summer. Tree forms a narrow shaft of shimmering foliage no more than 5 feet wide when the tree is 25 feet tall. For tall windbreak or screen, plant in a row 5 feet apart.

Catalog No. T 17

PLANTLAND'S

HEDGING SCREENING

SAVE NOW! AT GARDEN FAIR'S SALE PRICES!

Plantland's PARVIFOLIA SCREEN (Ulmus parvifolia)

Rare, rapid-forming and handsome!

For some years tree experts have recognized Parvifolia as an exceptionally fine tree but it has been so scarce as to be virtually unobtainable. We first became acquainted with the merits of Parvifolia from some handsome specimens at the Missouri Botanical Gardens. With some effort we succeeded in propagating the plant and after growing it in our nursery we discovered its amazing merits as a screening plant.

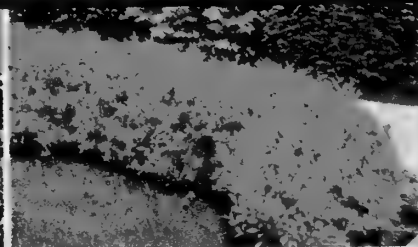

Parvifolia grows very dense and twiggy—yet with great rapidity. It branches right down to the ground and plants a year after planting resemble a boxwood of 10 years growth! Parvifolia means "Tiny Leaved." The small leaves are very dense and almost as dark green as a yew tree. Furthermore, they remain on the plant LONG IN THE FALL when other shrubs are sear and bare.

We have not found Parvifolia to be attacked by any disease or pest. It is exceptionally clean and litter-free. It is certainly not fussy as to soil and grows with uniform vigor under a variety of conditions. While it will tolerate some shade, it thrives best in the open. Parvifolia may be clipped to form a low hedge but it is in its full glory as a living screen of 5 or 6 feet. Its light twigs are easily sheared and the screen can be maintained at any desired dimension.

Parvifolia is so rare we know of no other nursery in the country that has an appreciable supply of plants. Ours is none too abundant. If you want a luxurious screen for privacy about your home grounds order enough plants now. Plant 2 ft. apart.

SUB ZERO LILAC SCREEN

This is a type of old-fashioned Lilac (Syringa vulgaris) from the high hills of Austria. Heavy trusses of fragrant lilac-flowers in May. Very vigorous and hardy. Will endure temperatures to 20° to 30° below zero and will prove hardy anywhere in the country. Foliage rich dark green, dense and leathery. Use as a screen background, living fence or property divider. Lilacs do best in full sun. They relish lime and respond to fertility. Plant a foot apart in a single row for quick forming hedge or screen.

MUMS

The greatest mums in garden mums this century!

HARVEST GIANT MUMS

For the first time—and at long last—a garden mum of the huge football type for the outdoor garden! Never before a mum discovery such as this. Now you can grow these huge double mums—up to 5 1/2-6 inches in diameter—in your own garden. They are completely hardy.

Early blooming—blooms appear in mid-September and plants will bloom continuously until killing frost.

Flowers are carried on heavy plants that have very strong stems—particularly nice for garden border and cut flowers.

Here is the most spectacular garden introduction of the year. Be among the first to display these beauties.

Available in the following brilliant colors:

FULL MOON—pure snowy white, incurved petals.

Catalog No. P 7

GOLD DUST—bright golden yellow, very free flowering.

Catalog No. P 8

TOUCHDOWN—largest of the Harvest Giants. A superb deep rose-pink.

The Finest Jewel-Tone Floribunda Cushion Mums

Those who saw our acres of chrysanthemum fields last fall agree that our Jewel Tone Floribunda Mums were the finest they had seen. Of hundreds of varieties available we have sorted out only the finest types. All develop into great, compact masses of bloom THIS VERY FALL—never grow tall or scraggly. These are the long-blooming types that are so hardy they laugh at early frosts! Last fall ours were bright and gay in mid-November after a 23° freeze! You'll agree they couldn't possibly pack more bloom and that the jewel colors are the most vivid you have seen. Plant plenty for a fiesta of color this fall.

Colorful HEDGING and SCREENING at Garden Fair SALE PRICES

Gain Low-Cost Privacy and Protection With Lovely AMUR HONEYSUCKLE SCREEN

(*Lonicera maackii*; *podocarpa*)

Now your home grounds can be screened from dust, noise, traffic, objectionable views and trespass with this living fence of sturdy, vigorous Amur Honeysuckle at amazingly low cost. Referred to as "Thanksgiving Honeysuckle" because its profusion of bright red berries and forest-green foliage at Thanksgiving, when other shrubs are bare. Fragrant flowers in late May. Completely hardy and disease free. Never needs spraying. Thrives in sun or shade. A bushy plant from the ground up. Does not become "leggy." A perfect nesting haven for song birds. Set plants two feet apart in a single row for hedge effect next summer.

SPECIAL CATALOG VALUE—Catalogue No. H-1

Field grown, branched, vigorous plants, 18-24 inches

20 feet of Hedge \$300 (10 heavy plants) 50 feet of Hedge \$700 (25 plants) 100 feet of Hedge \$1250 (50 plants)

Larger quantities — 23¢ per plant

DWARF BLUE LEAF WILLOW HEDGE

(*Salix purpurea nana*)

Exciting new silver-blue hedge plant. We have observed this plant in recent summers and have been amazed at the way the feathery, compact foliage stood the worst of the drouth. Use it trimmed as a colorful, low formal hedge around beds or walks. Let it grow untrimmed where you wish hedge three to four feet. Plant 1 foot apart. Catalog No. H 13.

Field-grown plants 12 to 18 inches, heavily branched.

per 10 Each 48¢ per 50 Each 45¢ per 100 Each 40¢

AMUR SCARLET MAPLE

(*Acer ginnala*)

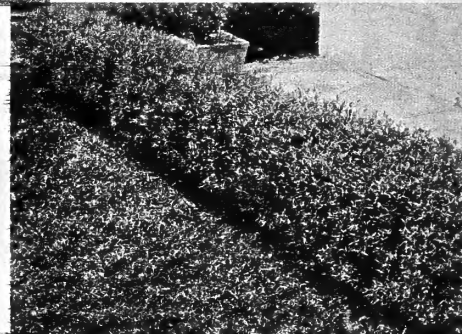

Best dwarf maple. In the summer the scarlet-red fruit against forest-green foliage creates an excellent color combination. A good tree for specimen or for screening purposes, requiring little care. 2-Yr. Plants—2-3 ft.

Catalog No. H 12

30 Ft. of Screen \$450 (10 Plants)

60 Ft. of Screen \$800 (20 Plants)

120 Ft. of Screen (40 Plants) \$1350

RUSSIAN OLIVE HEDGE

(*Eleagnus angustifolia*)

Exciting grey-green silvery foliage. Yellow flowers, silvery outside, in June. Thrives most anywhere. A favorite species for screening and windbreak planting. When not clipped, grows to 20 feet.

Heavy 18-24-in. seedlings. Set 2 feet apart for quick-knitting hedge.

Lifetime MULTIFLORA ROSE

"LIVING
FENCE"

FORREST KEELING MULTIFLORA ROSE

—THE BEST—FOR A LIFETIME LIVING FENCE

THE BEST LIVING FENCE you can buy! That's right, grade for grade you will find our Multiflora definitely superior. Grown by Hugh Stevenson, the originator of Multiflora Rose Living Fence.

Our plants are grown on the best Mississippi bottom ground. Plants receive the best culture, including a feeding of balanced plant-food injected into irrigation water each time plants are irrigated. The result is a "fattened" plant, loaded with nutrients, that is "rarin' to grow." Folks are amazed at the growth of our plants the very first year! Ordinarily, plants "stand still" the first year while the root system becomes established. And the fact that we grow and ship more of our living fence plants to more people throughout more of the country than any other nursery means we have been able to hold our prices to rock-bottom minimum for quality stock.

FORREST KEELING MULTIFLORA ROSE is a thick thorny, prolific blossoming strain that is especially noted for its abundance of bright red berries which appear in early fall and remain throughout the winter months. We grow only one type of Multiflora and we think there is none better for screening and fencing purposes. Its growth is umbrallike. Canes shoot up 4-6 ft. then begin to droop with the slender ends of the canes hanging almost to the ground. When plants are set close together (12 inches) in a single row they rapidly form an effective barrier against animals and people.

The importance of selecting the right type of Multiflora cannot be over-emphasized. The U.S. Department of Agriculture says "When selecting plants for your fence hedge of multiflora rose, be sure they are erect and have stiff thorns." The University of Missouri, College of Agriculture, has this to say: "The multiflora rose is notorious for variability of form and vigor. Upright, spreading and trailing kinds may be found. Some have thorns, others are thornless. For hedge purposes, it is important to select the upright, thorny vigorous type which grows a mass of dense canes from the ground to a height and spread of about eight feet.

Our Satisfied Customers—Your Best Guarantee

- **FROM MISSOURI:** "I desire 200 more #1 Standard Thorny Multiflora Rose. None of the 350 I ordered last spring has died. Some of the shoots on some of the plants have already grown 5 1/2 feet." *St. Louis, Mo.*
- **FROM OKLAHOMA:** "I bought 50 from you last year, and they are wonderful." *Oklahoma City, Okla.*
- **FROM TEXAS:** "This is a snapshot of a 3-yr.-old Multiflora Rose hedge (stock from your nursery). Has thrived thru Texas drought and grasshopper siege of last summer without irrigation. It borders the road and gets plenty of water from road ditch when it does rain." *Ft. Worth, Texas*
- **FROM MICHIGAN:** "We planted Multiflora Rose Fence on our place at Pigeon Michigan, in the fall of 1951—it survived two winters in fine shape and is now a nice fence—canes are 5 to 6 feet long—we're very proud of it." *Lansing, Mich.*
- **FROM ILLINOIS:** "Of the 1000 plants of your No. 1 size which I set out last March all have made excellent growth except three—run over by a wheel in plowing. Attaining an average height of 28" in the past summer. I am willing to hazard the guess that I will have a cattle fence in less than three years!" *Henry, Illinois*
- **FROM PENNSYLVANIA:** "We have had wonderful success with a thousand plants of your Multiflora Rose. After three years it will even hold our Cheviot Sheep!" *Harrisburg, Pa.*
- **FROM A SOUTHERN STATE GAME AND FISH COMMISSION:** "We would like to place an order with you now for next fall delivery for 25,000 Multiflora Rose plants. The 20,000 plants we received from you this fall were excellent stock. "You will be interested to know that survival of the plants so far is almost 100%. They are making vigorous growth at this time."

Millions of Forrest Keeling Multiflora Rose Plants
Have Been Sold to Make LIFETIME FENCING

GUARANTEE

We guarantee that 95% of the No. 1 Standard (and larger sizes) Forrest Keeling Multiflora Rose that you buy from us will live. If you will notify us during the first summer (before August 15) following planting of the number which do not live, replacement will be made equal to 95% of the number originally purchased. Conservation grade will ordinarily give excellent survival but we limit the guarantee to 85% because this smaller size is more vulnerable to adverse weather and site.

CHINESE EVERGREEN HEDGE

Makes Complete Hedge in Six Months!

Imagine, you can have a developed evergreen hedge this year. Fine, lacy foliage grows dense and luxuriant to make emerald living wall. Easily trimmed to any height desired from one foot up to 4, 5 or even 6 ft. Formal and neat even when not pruned!

Acclaimed most graceful and handsome of privets. Untrimmed plants bear large bouquets of showy flowers in mid-summer. Long-lived. One clipped hedge has been maintained at less than 4 feet tall for a century.

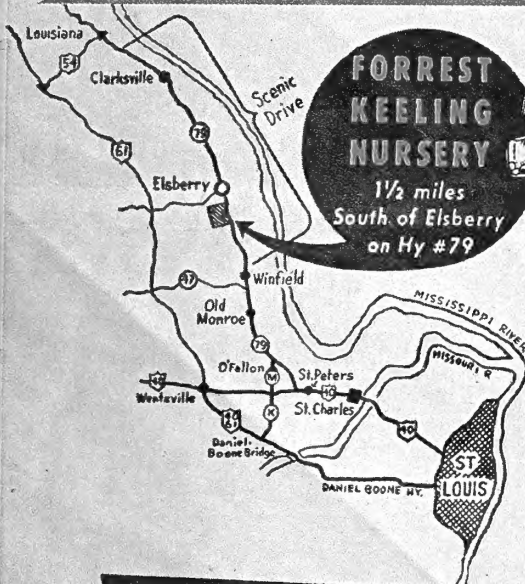

Our plants are a hardy strain and parent stock have endured temperatures to 12 degrees below zero. Plants remain evergreen except in coldest winters when some leaf-drop may occur. For a quick-developing hedge of permanent beauty, it is unrivaled.

We send our sturdy nursery-grown plants 12-18 in. tall.
